Ground study is hard on PPLs, no question, and anything that helps is welcome. This new package will ease the pain.

The course recovers with the well-explained Principles of Flight and Flight Performance and Planning. The Human Performance and Limitations disc is better too, with good diagrams of all the essentials.

Would I, as a flying instructor, recommend this course to a student? The answer is yes, but with caveats. It is a very well produced set of CDs, with many super explanations of essential PPL theory. But the course could have been expanded beyond the basic syllabus, so that pilots might actually receive more information of practical relevance, rather than merely being prepared for an exam. Having said that, it's a good piece of training equipment that I would certainly recommend to PPL students and training organisations. ■

## Multimedia Ground Training Solutions For The JAA PPL & UK NPPL Syllabus

- **DISK 1** Airlaw & Operational Procedures..... £49.95
- **DISK 2** Human Performance & Limitations..... £49.95
- **DISK 3** Navigation & Radio Aids..... £59.95
- **DISK 4** Meteorology..... £49.95
- **DISK 5** Aircraft General & Principles of Flight..... £69.95
- **DISK 6** Flight Performance & Planning..... £49.95

### PACK 1

- 6 Training CD-ROM's (see above)
- Quality Embossed Blue Leatherette display case
- Price if purchased separately would be over £329!
- [www.transair.co.uk](http://www.transair.co.uk) - for full details

PPL Study Package without VFR RT. **SAVE £79!** £249.95

### PACK 2

- 6 Training CD-ROM's (see above)
- 2 VFR RT CD-ROM's
- Quality Embossed Blue Leatherette display case
- Price if purchased separately would be over £389!
- [www.transair.co.uk](http://www.transair.co.uk) - for full details

PPL Study Package with VFR RT. **SAVE £100!** £299.95
